MEMORANDUM FOR: Project Security Officer

ATTENTION :

SUBJECT : Physical Security, 1717 H Street, N.W., Fifth Floor

1. I would like to bring to your attention a matter of physical security in the new Headquarters area at 1717 H Street. In the first week that we have been settled in these new quarters, it has been noted that the human voice penetrates walls with tissue paper clarity. This occurs not only intra-office, but conversations are audible in the corridor.

2. I would appreciate your taking this matter under consideration with a view toward your recommending either wall sound-proofing (which would prove most expensive), restricting the entire area including the corridors, or any other suggestion you may have in mind.

JAMES A. CUNNINGHAM, JR.
Director of Administration
